

Vaccine Ordering and Management has never been so **easy**

STC's new and improved VOMS interface was created with the end user in mind and can be used alongside any state registry software.

IMPROVE

Provider Accountability

On the new home screen, users can quickly view notifications, such as order approvals, action items like overdue reconciliation or pending returns, and also get a snapshot of their facility stats.

INCREASE

Inventory Accuracy and Management

Inventory management and reconciliation is now all on one easy screen. Colored alerts highlight expired inventory and those approaching expiry. Input non-decremented reasons and reconcile in just minutes.

OPTIMIZE

Ordering and Tracking

Foolproof automated ordering process walks the provider through each step with a progress bar to eliminate confusion and help desk calls.
